

K. S. Rangasamy College of Arts and Science (Autonomous), Tiruchengode

Department of Biochemistry (UG & PG)

Feedback and Action Taken Report (2018-2019)

Feedback:

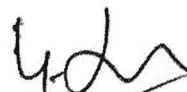

- The students requested to include the syllabus related to job opportunities.
- The alumni students and various stakeholders asked to provide the topics associated to advanced instrumentation techniques and their principles.
- The parents requested to conduct additional classes to the students for development of career competency skills.

Action taken:

- As requested by the students, we included the syllabus related to job opportunities, for example we had included Clinical laboratory techniques and Medical terminology as add-on mandatory subjects.
- As requested by the various stakeholders, we included biomedical instrumentation as a subject in 5th semester of the B.Sc syllabus.
- Earlier we provided only two courses related to career development but as requested by the parents, now we offer four courses related to career competency skills such as aptitude, employability, logical reasoning and communication skills.
