About the Department

The Bachelor of Business Administration at K.S.Rangasamy College of Arts and Science was established in the year 1996. It is a three year Under-Graduate programme for students who wish to pursue their education in management. The course aims at explaining the business environment of the public and private sectors. It helps the student to develop decision making ability in real time business situations. It also focuses on developing operational and analytical skills in students to tackle business problems in different sectors. A wide range of opportunities open in front of the students once the course is completed. The best part about the programme lies in the fact that the students get a general overview about the various tactics of managing and running a commercial organization.

Need of the course

In today's volatile and competitive environment, every individual need to improve their personality to compete with their competitors. It emphasizes the understanding and mastery of personality constructs applied to students' personal and professional lives

The course aims to cause a basic awareness about the significance of soft skills in professional and inter-personal communications and facilitate an all-round development of personality. Hard or technical skills help securing a basic position in one's life and career. This

Course covers various dimensions of effective personality. ... Soft skills comprise pleasant and appealing personality traits as self-confidence, positive attitude, emotional intelligence, social grace, flexibility, friendliness and effective communication skills.

Course Nature

The study of personality can be said to have its origins in the fundamental idea that people are distinguished by their characteristic individual patterns of behaviour—the distinctive ways in which they walk, talk, furnish their living quarters, or express their urges. Whatever the behaviour, personologists—as those who systematically study personality are called—examine how people differ in the ways they express themselves and attempt to determine the causes of these differences.

Although other fields of psychology examine many of the same functions and processes, such as attention thinking, or motivation, the personologist places emphasis on how these different processes fit together and become integrated so as to give each person a distinctive identity, or personality. The systematic psychological study of personality has emerged from a number of different sources, including psychiatric case studies that focused on lives in distress, from philosophy, which explores the nature of man, and from physiology, anthropology, and social psychology.

Eligibility

The Personality Development Program prepares successful behavioral and learning approaches of personalities. All the final year UG students are Eligible to join this course, Taught by an outstanding group of professors with extensive experience.

Program Outline:

The program highlights the importance of the following topics:

- Emotional Intelligence
- Communication skills Activities
- Training Energizer
- Training Icebreakers
- Business Venture Secrets
- Team building Activities

COURSE DURATION

Year : 2020 -2021
No. of Hours : 30
