2.3.2 Teachers use ICT enabled tools including online resources for effective teaching and learning process

Response

The college adopts ICT enabled tools for improving the teaching learning environment for the betterment of the students. Continuous efforts are being made to promote the E-learning atmosphere in addition to traditional classroom teaching such as chalk and talk method.

- Blended teaching method is an instructional approach that uses ICT enabled tools.
- Flipped classroom teaching is an instructional strategy, where a video content is played before the class session and followed by interactive explanation, solving exercise, etc., are given for the students to make the classroom an active learning environment.
- Web conferencing tools are used to conduct live laboratory experiments.
- Events such as Annual budgets are being projected with the help of ICT tools to the students of Commerce and Management.
- Visualizing teaching technique is followed to enhance the memory of students. The faculty members interact with the students using video clips or images related to the subject displayed on smart board.
- Language Lab plays a vital role in upgrading the language skills (LSRW) of the students which helps them to improve their pronunciation and be the master of the language skills.
- By using the intranet portals, students can easily access the lab manuals at the beginning of the semester.
- PPTs with animations are projected to improve the effectiveness of teaching.
- Media centre is available to create video lectures and all the videos are uploaded in appropriate platforms for the students' benefit.
- Google classroom enables the faculty members to manage learning resources, quizzes, and assignments etc., for the students. Google meet has helped the faculty members to deliver their lectures in online platform during the lockdown period.
